

POWERPRO®

Exclusively Engineered for
Advanced Water Systems

GENESIS Series

Exclusive models available:
PP110GS
PP113GS

FEATURES:

- **All Products** engineered for AWS have upgraded control valve, media and internal parts.
- **Highest Performance** capacities than any other in-class water softener.
- **Warranties** are the longest and more comprehensive than any other in-class water softener.
- **Metered, Demand Service.** Counts number of gallons treated which triggers automatic regeneration.
- **Fully-Adjustable Regeneration** time frame. Control when your softener regenerates.
- **Exclusive CD Matrix** control valve with fully adjustable controls.
- **Service Alert.** Receive automatic notifications for suggested service.
- **Minimize Reprogramming After Power Loss.** Control valve body has a battery back-up to store your program settings for up to 36 hours.
